

Prime Connect Select

Payment Reader with Options

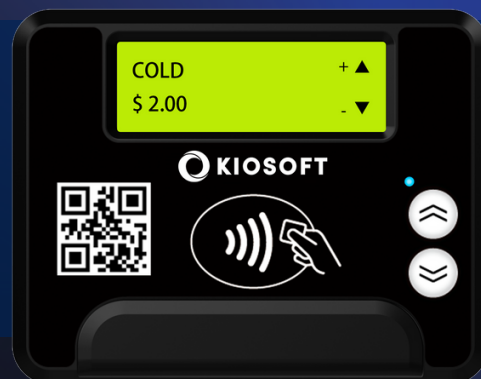

Pay-at-the-Machine reader supports:

Value Card

Mobile App

Prime Connect Select is your economical and powerful choice for accepting Value Card and Mobile App payments at an unattended machine, with the unique benefit of offering choice between prices or predefined package levels. Users can select the product that is right for their needs with simple Up and Down buttons.

With all of the capabilities of our connected readers, Prime Connect Select goes a step further to support both Incremental and Multi Price settings, configurable by the operator by location. It can also be set to Single Price mode if preferred.

Key Features:

ACCEPTANCE

Accepts Mobile App, Value Card, Cloud Card
